CREATE NEW ATTRIBUTES TAB

- **Stock Status**

Backend of Stock Status

Stock status is to manage the status of the stocks.

The picture below is the view of the stock status which is you can create, update and delete the item you will created .It shows the reference table 1.1

The screenshot shows a web interface for managing stock statuses. At the top, there is a breadcrumb trail: Home / Stock Statuses. Below this, the title 'Stock Statuses' is displayed. A green button labeled 'Create Stock Status' is positioned above the table. Below the button, it says 'Showing 1-1 of 1 item.' The table has four columns: '#', 'Status Code', 'Description Name', and an action column. The first row contains the values '1', 'PNDNG', 'pending', and icons for edit and delete.

#	Status Code	Description Name	
1	PNDNG	pending	 

To create a Stock statuses just simply click this button

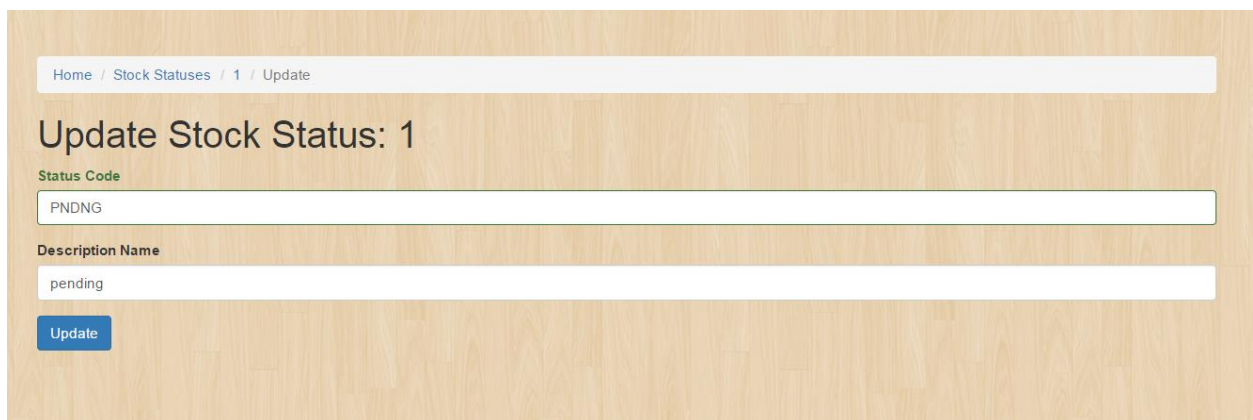

Create Stock Status for example:

1. Status code: P
Description name: Pending

The screenshot shows a web interface for creating a new stock status. At the top, a breadcrumb trail reads 'Home / Stock Statuses / Create Stock Status'. Below this is the title 'Create Stock Status'. There are two input fields: 'Status Code' and 'Description Name'. A green 'Create' button is located at the bottom left of the form area.

To edit or update the entity see the reference table 1.1 then click the update button.

The screenshot shows a web interface for updating an existing stock status. At the top, a breadcrumb trail reads 'Home / Stock Statuses / 1 / Update'. Below this is the title 'Update Stock Status: 1'. There are two input fields: 'Status Code' (containing 'PNDNG') and 'Description Name' (containing 'pending'). A blue 'Update' button is located at the bottom left of the form area.

- **Accounting Status**

Accounting Status Table:

Accounting Status table is to manage the all the accounting status of the item.

The picture below is the view of the accounting status table which is you can create, update and delete the item you will create. It shows the reference table 1.1

The screenshot shows the 'Accounting Statuses' page in the CRMGH-PMS system. The page has a green header bar with navigation links: Home, User Management, Stock Inventory, Stock Issue Forms, Return Item Forms, Create New attributes, and Logout (admin). Below the header, there is a breadcrumb trail: Home / Accounting Statuses. The main title is 'Accounting Statuses'. Below the title is a green button labeled 'Create Accounting Status'. Underneath the button, it says 'Showing 1-2 of 2 items.' Below this is a table with two columns: '# Status Code' and 'Description'. The table contains two rows of data. The first row has a status code 'fv' and description 'for viewing'. The second row has a status code 'DV' and description 'Done Viewing'. To the right of each row are three icons: a magnifying glass, a pencil, and a trash can.

#	Status Code	Description	
1	fv	for viewing	
2	DV	Done Viewing	

To create accounting statuses just simply click this button:

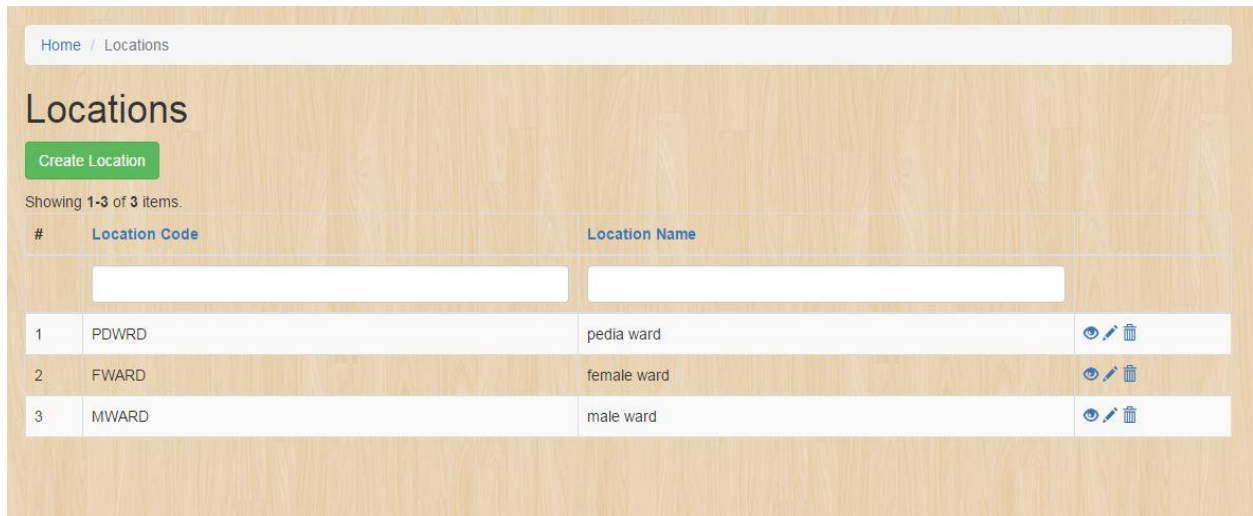

It will display this page:

The screenshot shows the 'Create Accounting Status' form in the CRMGH-PMS system. The page has a green header bar with navigation links: Home, Accounting Statuses, and Create Accounting Status. Below the header, there is a breadcrumb trail: Home / Accounting Statuses / Create Accounting Status. The main title is 'Create Accounting Status'. Below the title is a label 'Status Code' followed by a text input field. Below the input field is a label 'Description' followed by a text input field. At the bottom of the form is a green button labeled 'Create'.

- **Location**

Location Table:

The picture below is to view the Location table which is you can create, update and delete the item you will create. It show the reference table 1.1

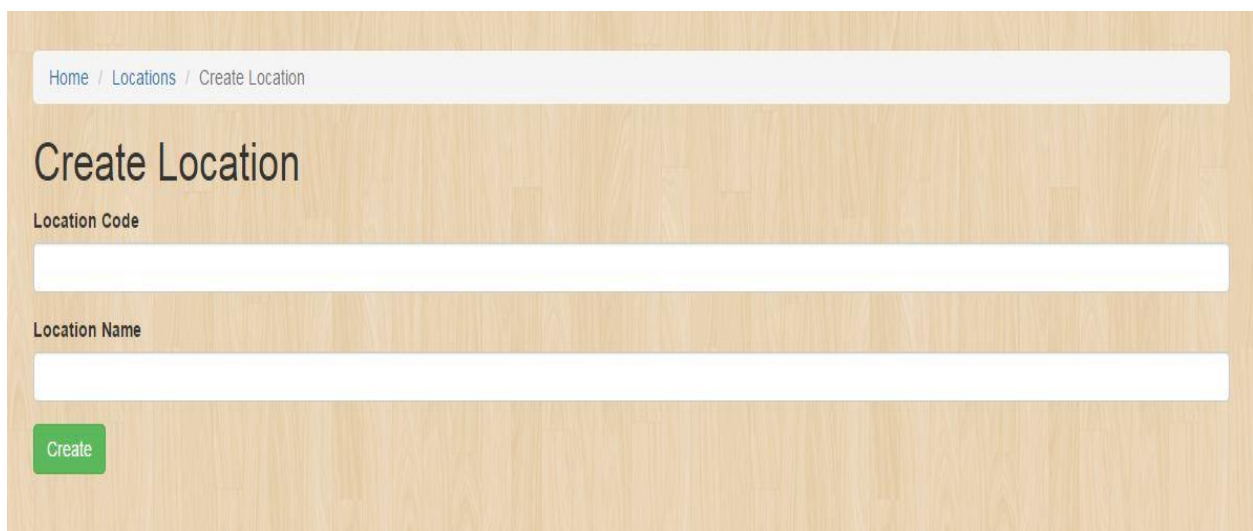

#	Location Code	Location Name	
	<input type="text"/>	<input type="text"/>	
1	PDWRD	pedia ward	 
2	FWARD	female ward	 
3	MWARD	male ward	 

To create a Location just click this button:

Fill up this form to create an entity in the Location table:

Home / Locations / Create Location

Create Location

Location Code

Location Name

Create

- **Bed**

Backend Bed

To create new **bed**, go to **create new attribute** navigation bar and click **bed**, the image below should be prompted which you can create, update and delete the item you will create .It shows the reference table 1.1.

#	Bed Code	Bed Number	Location Name	Bed Status
1	B2	207	female_ward	disposed

And Click the the button **create** like the image below, to create new bed.

And a new page like the image below would be open as you click the **create Bed** button. Fill out the fields with appropriate data and click the button **create**.

As you successfully **created Bed**, an image below should be the result.

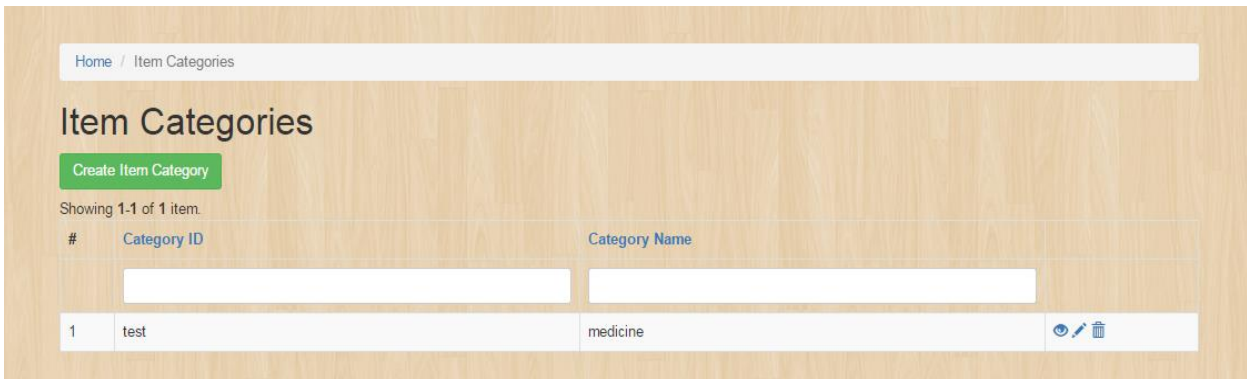

Bed Code	B2
Bed Number	207
Location Name	female_ward
Bed Description	asdasd
Bed Comments	awdrewe
Bed Status	disposed

- **Item Category**

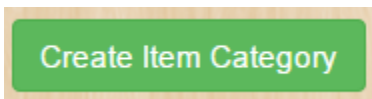

Backend Item Category

The picture below is to view the item category which is you can create, update and delete the item you will created .It shows the reference table 1.1

#	Category ID	Category Name	
1	test	medicine	  

To create an item category details click this button.

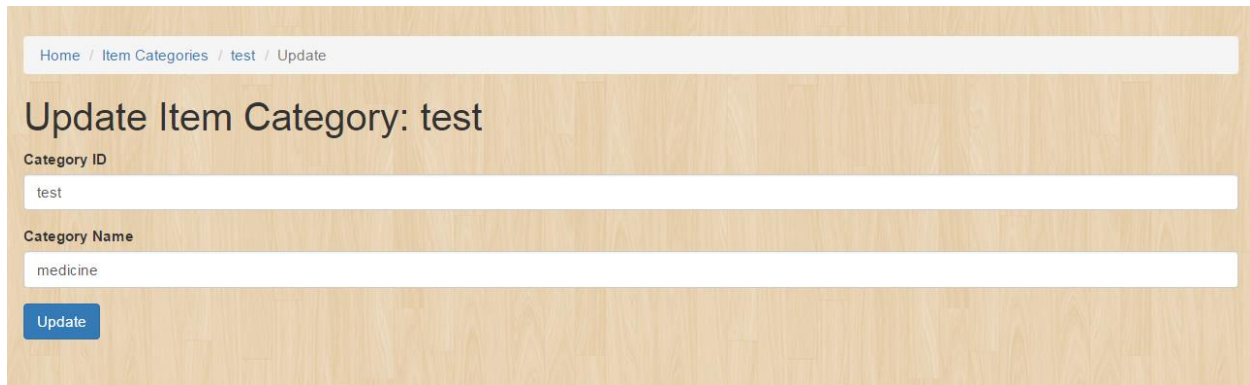

Fill up this form to create an entity in the Item category.

The screenshot shows a web form titled "Create Item Category" on a light wood-grain background. At the top, a breadcrumb trail reads "Home / Item Categories / Create Item Category". Below the title, there are two input fields: "Category ID" and "Category Name". A green "Create" button is positioned at the bottom left of the form area.

To edit or update the entity see the reference table 1.1 then click the update button.

The screenshot shows a web form titled "Update Item Category: test" on a light wood-grain background. At the top, a breadcrumb trail reads "Home / Item Categories / test / Update". Below the title, there are two input fields: "Category ID" containing the text "test" and "Category Name" containing the text "medicine". A blue "Update" button is positioned at the bottom left of the form area.
